

Tetra Multiway Charger

The new multiway charger for the Tetra portable multi gas monitor allows up to ten Tetra units to be charged at a time saving bench space, reducing the need for multiple mains outlets, and saving money in comparison to buying individual chargers.

- Single charger with 10 outlets
- Reduces bench space needed
- Requires single mains outlet to charge 10 units
- Universal 110V/230V inlet
- Available with UK, US or European mains lead
- Cost effective
